The Restated Consolidated Financial Information:

- a. has been prepared in accordance with the Act, the SEBI ICDR Regulations and the Guidance Note;
- b. has been prepared after incorporating adjustments in respect of changes in the accounting policies, material errors, and regrouping/reclassifications, if any, retrospectively (as disclosed in Annexure VI to the Restated Consolidated Financial Information) to reflect the same accounting treatment as per the accounting policies and groupings/classifications followed as at and for the three months period ended June 30, 2026, for all the reporting periods/years; and
- c. does not contain any qualifications in the auditor's reports requiring any adjustments;

(2) Historical cost convention

The Restated Consolidated Financial Information has been prepared on a historical cost basis, except for the following:

- Defined benefit plans — plan assets measured at fair value
- Certain investments held at Fair Value through Profit or Loss (FVTPL).
- Certain investments held at Fair Value through Other Comprehensive Income (FVTOCI)

(3) Functional and presentation currency

The Restated Consolidated Financial Information are prepared in Indian Million Rupee (Rs.) which is functional as well as presentation currency of the Group and its Joint Venture.

(4) Current and Non-Current classification

All assets and liabilities have been classified as current or non-current as set out in the Schedule III (Division II) to the Companies Act, 2013.

- a. The asset/liability is expected to be realised/settled in the Group's and its Joint Venture normal operating cycle.
- b. The asset is intended for sale or consumption.
- c. The asset/liability is held primarily for the purpose of trading.
- d. The asset/liability is expected to be realised/ due to be settled within twelve months after the reporting period.
- e. In case of liability, the Group and its Joint Venture do not have the right at the end of reporting period to defer the settlement of the liability for at least twelve months after the reporting period.

(5) Rounding of amounts

All amounts disclosed in the Restated Consolidated Financial information and notes have been rounded off to the nearest Million as per the requirement of Schedule III, unless otherwise stated. Figures below Rs. 5000 are denoted by "₹".

**Note 2B - New and amended standards adopted by the Group and its Joint Venture**

The recent amendments to Ind AS 1 have removed the carve-out from IFRS Accounting Standards which allowed entities to classify liability as non-current on account of breach of a material provision for which the lender has agreed to waive the breach after the end of reporting period but before the approval of the financial statements for issue. This amendment is applied retrospectively in accordance with the principles of Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

These amendments do not have a material impact on the Group and its Joint Venture in the current or future reporting periods and on foreseeable future transactions.

### **Note 3 - Critical estimates and judgements**

The preparation of Restated Consolidated Financial Information requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Restated Consolidated Financial Information. In addition, this note also explains where there have been actual adjustments this year as a result of changes to previous estimates.

The areas involving critical estimates or judgements are:

#### **3.1 Deferred Taxes:**

Significant management judgement is required to determine the amount of deferred tax assets and deferred tax liabilities that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies, including estimates of temporary differences reversing on account of available benefits from the Income Tax Act, 2025.

Deferred tax assets are recognised for unused tax losses / credits to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. (Refer note 37)

#### **3.2 Employee benefit plans:**

Defined benefit plans and other long-term employee benefits

The present value of obligations under defined benefit plan and other long term employment benefits is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual development in the future. These include the determination of the discount rate, future salary escalations, attrition rate and mortality rates etc. Due to the complexities involved in the valuation and its long term nature, these obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Information about the various estimates and assumptions made in determining present value of defined benefit obligation are disclosed in note 41.

#### **3.3 Contingent liabilities:**

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group and its Joint Venture. A contingent liability is either a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of uncertain future events not wholly within the Group's control, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources will be required to settle the obligation or the amount cannot be measured reliably. Such contingent liabilities are disclosed in the notes to the financial statements but are not recognized in the Restated Consolidated Statement of Assets and Liabilities. Obligations assessed as remote are neither recognized nor disclosed. The management determines whether matters are classified as 'remote', 'possible', or 'probable' based on expert advice, past judgments, and experience. (Refer note 38)

#### **3.4 Leases:**

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For leases of vehicles, land and buildings, the following factors are normally the most relevant:

- If there are significant penalty payments to terminate (or not extend), the Group is typically reasonably certain to extend (or not terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Group is typically reasonably certain to extend (or not terminate).
- Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset. (Refer note 40)

#### **3.5 Estimated useful life of property, plant & equipment**

The Group reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation and amortisation expense in future periods. These assets are depreciated based on their estimated useful lives after taking into consideration likely extension of the license agreement. (Refer note 4)

**Note 4 : Property, plant and equipment**

**Accounting Policy**

Freehold land is carried at historical cost. All other property, plant and equipment is recognised at historical cost less accumulated depreciation.

The useful lives have been determined based on technical evaluation done by the management's internal experts and likely extension of license agreements, as applicable. The estimated residual values are not more than 5% of the original cost of the asset except for pipelines and related assets where residual value is Nil.

See note 51 for the other accounting policies relevant to property, plant and equipment.

Depreciation is calculated using the straight-line method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

| Asset Class                               | Useful life followed by the Group (Years) | Useful life prescribed under Schedule II of the Companies Act, 2013 (Years) |

- 2 Additions to plant and machinery includes capitalisation of directly attributable costs incurred by the Group under various headings.
- 3 The weighted average rate for capitalisation of borrowing cost relating to general borrowing is 7.24% p.a. (June 30, 2025: 8.10 % p.a., March 31, 2026: 7.44% p.a., March 31, 2025: 8.56% p.a. and March 31, 2024: 10.15% p.a.)
- 4 The Group has not revalued its property, plant and equipment during the current or previous period/ year.
- 5 Refer Note 22 for mortgage and hypothecation details.
- 6 Change in useful life :  
The management of the Group has changed the useful life of certain items of Plant and Machinery as indicated in below table w.e.f. April 1, 2024:

| Plant and Machinery:                      | Old useful life | Revised useful life |
|-------------------------------------------|-----------------|---------------------|
| CNG Cascades                              | 15              | 20                  |
| Compressors, decompression and dispensers | 10              | 15                  |

Based on the operational and technical assessment carried out by the management, the Group has revised the remaining useful life of the above class of assets, which has resulted in depreciation charge being lower and Profit Before Tax being higher by Rs. 234.10 Million for the year ended March 31, 2025.

- 7 During the year ended March 31, 2026, the Group has reclassified the security deposit given to the vendor for gas purchase from Property, Plant and Equipment to Security Deposits under non-current assets. This reclassification was made pursuant to the change in the nature of the deposit, which was converted from a non-refundable security deposit to a refundable security deposit.

**Accounting Policy**

Licenses and Computer Softwares are carried at cost less accumulated amortisation and accumulated impairment losses, if any. The License was acquired as part of a business combination in FY 2021-22. The same has been recognised at the fair value at the date of acquisition and is subsequently amortised on a straight-line basis over their estimated license period of 13 years.

Amortisation of Computer Softwares is recognised on a straight-line basis over its estimated useful life of 3 years.

Note 6A: Goodwill

Accounting Policy

Goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

**Note - 13 : Inventories**

**Accounting Policy**

The cost of inventory are determined on a weighted average basis. Inventory of Gas (including gas in pipeline (Cushion gas)) is measured assessing the volume of natural gas within pipelines and cascades, taking into account factors such as pressure and temperature. Cushion gas is the volume of gas that is required in an underground storage field/ pipeline network to maintain minimum field pressure. Considering the nature of gas being continuously flowing it is intended to be sold hence it is considered under inventory as per Ind AS 2.

**Note - 15 : Trade receivables**

**Accounting Policy**

Trade receivables are amounts due from customers for sale of natural gas (i.e. sale of Compressed Natural Gas (CNG), Compressed Bio Gas (CBG) and Piped Natural Gas (PNG)), Compression and Connection charges and other ancillary services performed in the ordinary course of business and reflect the Group's unconditional right to consideration (that is, payment is due only on the passage of time). In case of domestic customers, the gas sales between last meter reading date and reporting date are classified as unbilled trade receivables. The receivable is 'unbilled' because the Group has not yet issued an invoice; however, the amount has been included under trade receivables because it is an unconditional right to consideration.

Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

For trade receivables, the Group applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised on the receivables.

**7 Supplier Finance Arrangements**

Supplier finance arrangements are characterised by one or more finance providers offering to pay amounts that an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, when suppliers are paid. These arrangements provide the entity with extended payment terms, or the entity's suppliers with early payment terms, compared to the related invoice payment due date.

The Group enters into supplier finance arrangements, under which suppliers may elect to receive early payment for invoices, while the Group settles the related obligations with the financial institution at a later date. These arrangements are recognized as financial liabilities in accordance with Ind AS 109 and are measured at amortized cost unless designated at fair value through profit or loss.

The Group discloses the nature and terms of these arrangements, including payment conditions and the role of the finance provider, to ensure transparency. The impact of supplier finance arrangements on cash flows is presented in accordance with Ind AS 7, distinguishing between operating and financing activities. The Group also monitors liquidity risks that may arise if such financing is withdrawn or altered

**Note - 28 : Revenue from operations**

**Accounting Policy**

The Group is in the business of city gas distribution, wherein it earns revenue from sale of natural gas, trading of gas and rendering of allied services.

**i) Sale of natural Gas**

The Group is engaged in sale of Natural Gas (i.e. Compressed Natural Gas (CNG)), Compressed Bio Gas (CBG) and Piped Natural Gas (PNG).

**a) CNG and CBG Sales**

The Group operates mainly on the following two business models:

**(i) Stations owned and operated by the Group**

The Group has determined the end consumer as the Group's customer for the sale of gas (CNG and CBG) from stations owned and operated by the Group. Revenue is recognised at the retail selling price when the CNG / CBG is delivered to the customer at the dispensing station

**(ii) Stations owned and operated by Dealers / Oil Marketing Companies (OMCs).**

For sale of gas to stations owned and operated by dealers / OMCs, the Group considers the dealer / OMC as the customer, considering that the dealer/ OMC is the licenced party responsible to dispense CNG /CBG to the end consumer.

Revenue in such arrangements is recognised at the price (net of trade margin) at which the CNG / CBG is sold to the dealers / OMCs when the CNG / CBG is delivered to the dealers / OMCs. These customers are billed on a fortnightly basis.

**b) PNG Sales**

Revenue from sale of PNG is recognised at point in time when control is transferred to the customers (Industrial and commercial entities), which is generally on delivery of the gas at metered/assessed measurements facility.

In case of Domestic PNG customers billing cycle is bi-monthly and Industrial and Commercial PNG customers are billed based on fortnightly basis.

**ii) Sales of service**

The Group is engaged in Gas compression service, and the revenue from gas compression is recognised at point in time when the compressed gas is delivered to the Customer.

Connection and Service income is recognised based on satisfaction of performance obligation i.e. end connection at customer facility is completed.

**(iii) Natural Gas - Trading**

Revenue from trading of Natural Gas is recognised, net of returns and rebates, on transfer of the control of natural gas to the customer. Control is generally transferred to the customer on delivery of the natural gas at metered/assessed measurements facility. The Group acts as a principal for sale of gas.

**Financing component**

The Group does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year.

**Indirect taxes**

Indirect taxes which are collected on behalf of the government (i.e., VAT and GST) are not included in the Group's revenue. As excise duty is levied on manufacture, the Group acts as a principal in collection of excise duty and therefore, the Group's revenue is inclusive of the excise duty.

**Note - 29 : Other income**

**Accounting Policy**

For all financial instruments measured at amortised cost and interest bearing financial assets, interest income is recognised using the effective interest rate (EIR), which is the rate that discounts the estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

The Group is in the process of developing the city gas distribution network in the authorised geographical areas in accordance with the minimum work programme (Refer Note 38). Based on the management assessment, it is reasonable that there will be sufficient taxable profits in future against which the unabsorbed losses and depreciation will be utilised.

(iv) The Group is in dispute with another City Gas Distribution (CGD) company in relation to boundaries of authorization area and damages claimed by the said CGD company is aggregating to Rs. 570.00 Million. The Group obtained a favourable order from the Petroleum and Natural Gas Regulatory Board (PNGRB) which was set aside by Appellate Tribunal for Electricity (APTEL) on an appeal filed by the said CGD company. The Group approached the Supreme Court against the APTEL order. The Supreme Court has stayed the operation of the judgment of APTEL. Based on facts of the matter and precedence in similar matters, the management has assessed that no outflow of resources would arise.

(v) The Company has furnished a bank guarantee of Rs. 29.30 Million to its gas supplier in respect of potential claims relating to the use of allocated gas for purposes other than those specified during the period 2016-2022. The settlement of such claims will be subject to the process to be finalized by the Ministry of Petroleum and Natural Gas. The management has assessed that no outflow of resources would arise.

**Notes :**

Management believes that its position on the aforesaid direct and indirect tax matters and other claims against the Group will likely be upheld in the appellate process and accordingly no provision has been made in the Restated Consolidated Financial Information for such demands.

In respect of the above, the expected outflow will be determined at the time of final resolution of the dispute / matters. No reimbursement is expected.

**38.2 Capital and other commitments :**

(i) **Estimated amount of contracts remaining to be executed on capital account and not provided for is as under:**

**Dholpur CGD Private Limited**

On March 24, 2025, the PNGRB approved the transfer of ownership from Essel Gas Company Limited (the joint venture partner) to Torrent Gas Limited (the parent company). Additionally, the PNGRB directed Torrent Gas Limited to pay a penalty of Rs. 32.92 Million due to a shortfall in meeting the Minimum Work Programme (MWP) targets. The management has requested a waiver of the penalty and, in the interim, proposed to provide a bank guarantee as a substitute for the penalty amount. There is no further communication from PNGRB in this regard.

**B Gas Purchase Commitment**

The Group has entered into various agreements for purchase of natural gas. The contracts have Take or Pay obligations. Vendor of natural gas in turn also have the liquidated damages payable in case they are not able to supply natural gas to the Group. The terms of the contracts also include make-up provisions or liability after mitigation proceeds.

The Group is under active discussion with the vendors and in the process of getting the appropriate intimation with respect to the mitigation proceeds as also getting consent to make up shortfall of gas in coming years. The shortfall of such purchase commitments in gross terms is Rs.2,207.40 Million as at June 30, 2026 (June 30, 2025: Rs. 634.41 Million, March 31, 2026: Rs. 2,207.40 Million, March 31, 2025: Rs. 634.41 Million and March 31, 2024: Rs. 672.50 Million).

Based on the past experience and discussion with the vendors, the management has assessed that it would get the favorable intimation with respect to the mitigation proceeds and also get consent to make up shortfall of gas in coming years.

**Note 40: Leases**

**Accounting Policy**

**As a Lessee:**

The Group acquires various buildings (offices and Guest houses), vehicles and land on lease.

Rental contracts typically ranges from 2 year to 10 years for buildings, 10 to 99 years for land and 2 to 6 years for vehicles.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group uses existing borrowing rate as a starting point, adjusted to reflect changes in financing conditions.

**Short term lease and lease of low value assets;**

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise small items of office equipment.

This note provides information on leases where the Group is a lessee.

**41.2 Defined benefit plans**

**(a) Gratuity**

The Group operates through various gratuity trust, a plan, covering all its employees. The benefit payable is the greater of the amount calculated as per the New Labour codes / Payment of Gratuity Act, 1972 or the Group scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. The gratuity benefits payable to the employees are based on the tenure of employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Group. In case of death while in service, the gratuity is payable irrespective of vesting.

The Group makes annual contribution to the gratuity schemes administered by the Life Insurance Corporation of India through its Gratuity Trust Funds. The liability in respect of plan is determined on the basis of an actuarial valuation. (Refer note 41.4)

**(b) Risk exposure to defined benefit plans**

The plans typically expose the Group to actuarial risks such as: asset volatility, interest rate risk, longevity risk and salary risk as described below:

**Asset volatility**

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on Indian government securities; if the return on plan asset is below this rate, it will create a plan deficit.

**Interest risk**

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

**Longevity risk**

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

**Salary risk**

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

**(c) Significant assumptions**

The principal assumptions used for the purposes of the actuarial valuations were as follows.

- (f) **Category wise plan assets**  
Contributions to fund the obligations under the gratuity plans are made to the Life Insurance Corporation of India.

- (g) **Sensitivity analysis**  
Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

**Note 41: Employee benefit plans (Contd.)**

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Restated Consolidated Statement of Assets and Liabilities.

- (h) The weighted average duration of the gratuity plan based on average future service is 19 years (June 30, 2025 - 19 years, March 31, 2026 - 19 years, March 31, 2025 - 19 years and March 31, 2024 - 19 years).
- (i) Expected contributions to the plan for the next annual reporting period is Rs. 60.32 Million (June 30, 2025- Rs. 52.47 Million, March 31, 2026 - Rs. 52.20 Million, March 31, 2025 - Rs. 48.80 Million and March 31, 2024 - Rs. 42.77 Million).

**41.3 Other long-term employee benefit obligations**

The Compensated absences cover the Group's liability for earned leave. The entire amount of the provision of Rs. 128.85 Million (June 30, 2025: Rs. 120.12 Million, March 31, 2026: Rs. 127.47 Million, March 31, 2025: Rs. 108.10 Million and March 31, 2024: Rs 88.72 Million) is presented as current, since the Group does not have an unconditional right to defer settlement for these obligations. Expected amount towards settlement of Leave for the next 12 months are Rs. 24.43 Million ( June 30, 2025: Rs. 19.06 Million, March 31, 2026: Rs. 24.15 Million, March 31, 2025: Rs. 17.28 Million and March 31, 2024: Rs 14.13 Million).

**41.4 Labour Code**

The Government of India has consolidated 29 existing labour legislations into a unified framework comprising four labour codes viz the Code on Wages, 2019, the Code on Social Security, 2020, the Industrial Relations Code, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the "Codes"). The Codes have been made effective from November 21, 2025. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations.

The incremental impact of these changes, assessed by the Group, on the basis of the information available, consistent with the guidance provided by the Institute of Chartered Accountants of India, is not material in the Restated Consolidated financial statements of the Group for the period ended June 30, 2026 and March 31, 2026. Once Central / State Rules are notified by the Government on all aspects of the Codes, the Group will evaluate impact, if any, on the measurement of employee benefits and would provide appropriate accounting treatment.

The Group does not have any dilutive potential ordinary shares and therefore diluted earnings per share is the same as basic earnings per share.

**Note 44: Operating segments**

The Chief Operating Decision Maker (CODM) consists of Board of Directors. The CODM evaluates the Group's performance and allocates resources based on analysis of various performance indicators pertaining to business as a single segment. Accordingly, the Group does not have any reportable segments as per Indian Accounting Standard 108 "Operating Segments".

The Group's operations are wholly confined within India and as such there is no reportable geographical information.

The Group has a revenue of Rs. 9,431.49 Million (June 30, 2025 : Rs. 7,078.96 Million, March 31, 2026: Rs. 29,776.26 Million, March 31, 2025: Rs. 23,338.51 Million and March 31, 2024: Rs. 18,278.47 Million) from transactions with three (June 30, 2025: three, March 31, 2026: three, March 31, 2025: three and March 31, 2024: three) major customer, each contributing to more than 10% of the total revenue of the Group.

Note 46: Financial instruments and risk review

(a) Capital management

The Group manages its capital structure in a manner to ensure that it will be able to continue as a going concern while optimising the return to stakeholders through the appropriate debt and equity balance. The Group's capital structure is represented by equity (comprising issued capital, retained earnings and other reserves as detailed in note 20 and 21) and debt (borrowings as detailed in note 22 and 23). The Group's management reviews the capital structure of the Group on an annual basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

Gearing ratio

The gearing ratio at end of the reporting period is as follows.

|                      | As at June 30, 2026 | As at June 30, 2025 | As at March 31, 2026 | As at March 31, 2025 | (Rs. in Million)<br>As at March 31, 2024 |

<sup>a</sup>After considering unamortised cost of Rs. 243.67 Million as at June 30, 2026 (June 30, 2025 - Rs. 201.56 Million, March 31, 2026 - Rs. 246.01 Million, March 31, 2025 - Rs. 186.77 Million and March 31, 2024 - Rs. 143.33 Million).

Notes:

- Debt is defined as all long term debt outstanding (including unamortised cost) + short term debt outstanding + lease liability
- Total equity is defined as Equity share capital + all reserve + deferred tax liabilities - deferred tax assets - other intangible assets - Goodwill

Loan Covenants

Under the terms of the major borrowing facilities, the Company is required to comply with the following financial covenants at the end of each annual reporting period:

For loans from bank taken by Torrent Gas Limited:

- Debt service coverage ratio should not be below 1.10 Times
- Fixed asset coverage ratio should not be below 1.25 Times
- Interest Coverage Ratio should not be below 1.75 Times
- Net Debt to Adjusted Tangible Net Worth should not exceed 3 times.
- Total Liabilities to Net Worth ratio should not exceed 3.5 times.

The Company has complied with these covenants as at year ended March 31, 2026, March 31, 2025 and March 31, 2024.

The Company is not required to comply loan covenants as at June 30, 2026 and June 30, 2025 or till next tested as at the March 31, 2027.

There are no indications that Company would have difficulties complying with the covenants when they will be next tested as at the March 31, 2027. Further, none of the other entities in group are required to comply loan covenants for any reporting period.

<sup>a</sup>After considering unamortised cost of Rs. 243.67 Million as at June 30, 2026 (June 30, 2025 - Rs. 201.56 Million, March 31, 2026 - Rs. 246.01 Million, March 31, 2025 - Rs. 186.77 Million and March 31, 2024 - Rs. 143.33 Million).

(c) Fair value measurement

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**Note 46: Financial instruments and risk review (Contd.)**

The finance department of the Group includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. The following table summarises financial assets and liabilities (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the restated consolidated financial informations:

**(d) Financial risk management objectives**

The Group's principal financial liabilities, comprise of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations, and projects capital expenditure. The Group's principal financial assets include investments, trade receivables and cash and cash equivalents.

The Group's activities expose it to a variety of financial risks viz credit risk, liquidity risk, Interest rate risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Group's senior management oversees the management of these risks. It advises on financial risks and the appropriate financial risk governance framework for the Group.

**Interest rate risk**

All of the Group's borrowings are on a floating rate of interest. The Group has exposure to interest rate risk, arising principally from movements in the Treasury Bill Rate / Marginal Cost of Funds based Lending Rate (MCLR)/ Repo Rate.

The following table provides a break-up of the Group's floating rate borrowings:

|                                       | As at June 30, 2026 | As at June 30, 2025 | As at March 31, 2026 | As at March 31, 2025 | (Rs. in Million)<br>As at March 31, 2024 |

**Interest rate risk sensitivity:**

The below mentioned sensitivity analysis is based on the exposure to interest rates for floating rate borrowings. For this it is assumed that the amount of the floating rate liability outstanding at the end of the reporting period was outstanding for the whole year. If interest rates had been 50 basis points higher or lower, other variables being held constant, following is the impact on profit before tax.

|                                                           | As at June 30, 2026 | As at June 30, 2025 | As at March 31, 2026 | As at March 31, 2025 | (Rs. in Million)<br>As at March 31, 2024 |

**Note 46: Financial instruments and risk review (Contd.)**

**Commodity price risk**

The Group is engaged in the business of distribution of natural gas to industrial, commercial, domestic, and transport sector consumers. Commodity price exposure arising from fluctuations in natural gas prices is managed through the Company's own pricing mechanism. Accordingly, while natural gas prices may vary, the Company has the flexibility to adjust consumer prices, and therefore such commodity price exposure is not expected to have a material financial impact.

The Group also has indirect exposure to USD/INR exchange rate fluctuations in certain natural gas procurement contracts, where prices are denominated in USD but invoiced in INR. The actual rupee cost of such purchases is substantially recovered from consumers through pricing adjustments, and hence foreign exchange exposure is also not likely to have a material financial impact on the Group.

**Credit risk - Trade Receivable**

Credit risk is the risk of financial loss to the Group, if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and from deposits with banks and other financial instruments. Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the Group through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the Group grants credit terms in the normal course of business. Credit receivables are also secured through deposits given by the customers.

The Group uses the Expected Credit Loss (ECL) model on CNG and PNG customers to assess the impairment loss in respect of its financial assets. As per ECL simplified approach, the Group uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of Group's customers' financial condition; ageing of trade accounts receivable; the Group's historical loss experience; and adjustment based on forward looking information. The Group defines default as an event when there is no reasonable expectation of recovery.

Receivable balances mainly comprise of outstanding from consumers wherein the credit period provided to such consumers is less than 30 days. Based on the historical trend the same is collected well within the credit period. Considering the nature of the business and past trends, the expected credit loss is not significant. Loss allowance as at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024 was determined as follows for trade receivables under the simplified approach:

The age of receivables and provision matrix at the end of the reporting period is as follows.

Note 1

Receivable balances mainly comprise of outstanding from consumers wherein the credit period provided to such consumers is less than 30 days. Based on the historical trend the same is collected well within the credit period. Considering the nature of the business and past trends, the expected credit loss is not significant.

The movement in the allowance for impairment in respect of trade receivables is as follows:

**Note 46: Financial Instrument and risk review (Contd.)**

**Other financial assets/instruments:**

The Group is having balances in cash and cash equivalents, term deposits with banks and investment in mutual funds. The Group is having balances in cash and cash equivalents, term deposits with scheduled banks with high credit rating and hence perceive low credit risk of default. With respect to investments, the Group limits its exposure to credit risk by investing in Mutual Funds which are overnight/liquid/ultra short term/low duration/money market schemes which are having low risk depending on their Composite Performance Rankings (CPR) published by CRISIL. The Group's investment policy lays down guidelines with respect to exposure per counterparty, rating, processes in terms of control and continuous monitoring. The Group therefore considers credit risks on such investments to be negligible.

**Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are required to be settled by delivering the cash or another financial asset. The Group manages liquidity risk by maintaining adequate investments, banking facilities and by continuously monitoring projected / actual cash flows.

The Group continues to rely significantly on financial support from the holding company to fund its operational and capital requirements as and when required. The Group is also in process of raising addition financing from banks and financial institutions to support their ongoing and future operations.

**Maturities of financial liabilities**

The Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods is given below. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest accrued and principal cash flows. The contractual maturity is based on the earliest date on which the Group may be required to pay.

**Note:**

The Group is engaged in the business of City Gas Distribution (CGD) in India which involves distribution of gas from sources of supply to the end user customers. The CGD project is designed considering demand, supply and future requirements based on the facilities envisaged for CGD network in authorised areas for 25 years on the basis of authorization from Petroleum and Natural Gas Regulatory Board (PNGRB) to lay, build, operate or expand city or local natural gas distribution network. On the basis of demand projections, the CGD network is planned. Project execution plans are modulated on the basis of continuous ongoing expansion and all the projects are executed and expanded on ongoing basis as per geographical area wise rolling annual plan. Hence, it is considered that there is no project whose completion is overdue or has exceed its cost compared to its original plan.

The Group had no projects/geographical areas on hold as at June 30, 2026, June 30, 2025, March 31, 2026, March 31, 2025 and March 31, 2024.

**Note 51: Summary of other accounting policies**

This note provides a list of other accounting policies adopted in the preparation of these Restated Consolidated Financial Information to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated.

**a. Property, Plant and Equipment:**

Historical cost includes expenditure that is directly attributable to the acquisition of items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Subsequent cost relating to day-to-day servicing of the item are not recognised in the carrying amount of an item of property, plant and equipment; rather these costs are charged to profit or loss when they are incurred.

Borrowing cost relating to acquisition/construction of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready for their intended use.

Expenditure incurred during the period of construction including, all direct and indirect overheads, incidental and related to construction is carried forward and on completion, the costs are allocated to the respective property, plant and equipment.

Spare parts or stores meeting the definition of Property, Plant and Equipment, either procured along with equipment or subsequently, are capitalized in the asset's carrying amount or recognized as separate asset, if appropriate. However cost of day to day servicing is recognized in profit or loss as incurred. Costs of day to day service primarily include costs of labour, consumables and cost of small spare parts.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Capital work in progress in the course of construction for production, supply or administrative purposes is carried at cost, less any recognised impairment loss. Cost includes purchase price, taxes and duties, labour cost and other directly attributable costs incurred upto the date the asset is ready for its intended use. Such property, plant and equipment are classified to the appropriate categories when completed and ready for intended use.

Refer material accounting policy in note 4.

**b. Intangible Asset Acquired:**

Computer software is carried at cost less accumulated amortization and accumulated impairment losses if any. Amortization is recognised on a straight line basis over its estimated useful life of 3 years. The Estimated useful life and amortization method are reviewed at the end of each reporting period and the effect of any changes in such estimate is accounted for on prospective basis.

Cost of intangible assets acquired in business combination is their fair value at the date of acquisition.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under "Intangible assets under development".

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from the use or disposal. Gains or losses arising from the derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when asset is derecognised.

**c. Impairment of assets:**

Property, plant and equipment, Right of use assets and intangible assets are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the assets exceeds its recoverable amount, which is the higher of an asset's fair value less costs of disposal and value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit. An impairment loss is recognised immediately in profit or loss.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets, other than goodwill, if any, that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**Note 51: Summary of other accounting policies (Contd.)**

**d. Cash and Cash Equivalent**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, balances with banks and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts, if any.

**e. Inventories**

Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Refer material accounting policy in note 13.

**f. Foreign Currency transactions**

**Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

**g. Employee Benefit:**

**(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Restated Consolidated Statement of Assets and Liabilities.

**(ii) Other long-term employee benefit obligations**

Liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Restated Consolidated Statement of Profit and Loss.

The obligations are presented as current liabilities in the Restated Consolidated Statement of Assets and Liabilities if the group does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

**(iii) Post-employment obligations**

The Group operates the following post-employment schemes:

(a) defined benefit plans: Gratuity

(b) defined contribution plans: Provident fund, pension fund and employee state insurance scheme.

**Note 51: Summary of other accounting policies (Contd.)**

**Defined Benefit Plans**

The liability or asset recognised in the Restated Consolidated Statement of Assets and Liabilities in respect of gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated by an actuary using projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximately to the terms of the related obligations.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets. This cost is included in the employee benefit expense in the Restated Consolidated Statement of Profit and Loss.

Remeasurements, comprising actuarial gains and losses and the effect of the changes to the asset ceiling (if applicable), is reflected immediately in the Restated Consolidated Statement of Assets and Liabilities with a charge or credit recognised in other comprehensive income in the period in which they occur and consequently recognised in retained earnings and is not reclassified to profit or loss.

The defined benefit obligation recognised in the Restated Consolidated Statement of Assets and Liabilities represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

**Defined contribution plans**

Contributions to retirement benefit plans in the form of Provident fund, pension fund, employee state insurance scheme and labor welfare fund as per regulation are charged as an expense on an accrual basis when employees have rendered the service. The Group has no further payment obligation once the contributions have been paid.

**h. Taxation**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Restated Consolidated Financial Information.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

**Note 51: Summary of other accounting policies (Contd.)**

**i. Trade and other payable**

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year/period which are unpaid. The amounts are unsecured and are usually paid according to the agreed credit period. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

**j. Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the Restated Consolidated Statement of Assets and Liabilities when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the Group does not classify the liability as current, if the lender agrees, after the reporting period and before the approval of the Restated Consolidated Financial Information for issue, not to demand payment as a consequence of the breach.

**k. Borrowing costs**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

**l. Earnings Per Share :**

**Basic Earnings Per Share (EPS)**

Basic earnings per share is calculated by dividing the profit / loss after tax, by the weighted average number of equity shares outstanding during the financial year.

**Diluted Earnings per share (DPS)**

Diluted earnings per share is computed by adjusting the figures used in the determination of basic EPS to take into account:

- After tax effect of interest and other financing costs associated with dilutive potential equity shares.
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**m. Provisions, contingent liabilities and contingent assets:**

A provision is recognized when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

**Contingent Liability**

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise are disclosed as contingent liability and not provided for. Such liability is not disclosed if the possibility of outflow of resources is remote.

**Note 51: Summary of other accounting policies (Contd.)**

**Contingent Asset**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognised but disclosed only when an inflow of economic benefits is probable.

**n. Leases:**

**As a Lessee:**

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- amounts expected to be payable by the Group, if any, under residual value guarantees

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

Lease payments are allocated between principal and finance cost. The finance cost is charged to Restated Consolidated Statement of Profit or Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

**Right-of use assets**

Right-of-use assets are measured at cost comprising the following:

- amount of the initial measurement of lease liability
- lease payments made before the commencement date
- any initial direct costs
- restoration costs

Details about the Group's leasing policy are provided in note 40.

**o. Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

**p. Financial Instrument:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

**Financial Assets**

**Classification of financial asset**

The Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through Other comprehensive income, Or through profit or loss), and
- Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of cash flows.

**Initial Measurement:**

Financial assets are recognized when the Group becomes a party to the contractual provisions of the instrument. At initial recognition, the Group measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value.

**Note 51: Summary of other accounting policies (Contd.)**

**Subsequent Measurement**

After initial recognition, financial assets are measured at:

- fair value (either through Other Comprehensive Income or through Profit and Loss), or
- amortized cost

**Debt instruments**

Debt instruments are subsequently measured at amortized cost, fair value through other comprehensive income ('FVTOCI') or fair value through Profit and Loss ('FVTPL') till de-recognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

**Amortised Cost**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in Restated Consolidated Statement of Profit or Loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

**Fair value through other comprehensive income (FVTOCI)**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI'). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in Restated Consolidated Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains and losses and impairment expenses in other expenses.

**Fair Value through Profit or loss (FVTPL)**

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in Restated Consolidated Statement of Profit or Loss and presented net in the Restated Consolidated Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

**Impairment of financial assets:**

The Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

- financial assets that are debt instruments, and are measured at amortised cost e.g., loans, deposits, and bank balance
- trade receivables

The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

**Note 51: Summary of other accounting policies (Contd.)**

**Derecognition of financial assets**

A financial asset is derecognized only when:

- the Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows from the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

**Financial Liabilities**

**Initial recognition and measurement:**

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at its fair value.

**Subsequent Measurement**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in Restated Consolidated Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Restated Consolidated Statement of Profit and Loss. Any gain or loss on derecognition is also recognized in Restated Consolidated Statement of Profit and Loss.

**Derecognition of financial liabilities**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments: Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

**Note 51: Summary of other accounting policies (Contd.)**

**q. Business combinations and Goodwill:**

**Business combination – acquisition**

Acquisitions of businesses are accounted for using the acquisition method. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred, liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

The excess of the

- consideration transferred;
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

**r. Goodwill**

Goodwill is not amortised but is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to such entity.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

**Note 51: Summary of other accounting policies (Contd.)**

**s. Principles of consolidation**

**Subsidiaries**

The Restated Consolidated Financial Information comprise the Restated Consolidated Financial Information of the Company, its subsidiaries and its joint venture (upto March 26, 2025). Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Consolidation of an entity begins when the Group obtains control over the entity and ceases when the Group loses control of the entity. Specifically, income and expenses of an entity acquired or disposed of during the year are included in the Restated Consolidated Statement of Profit and Loss from the date the Group gains control or until the date when the Group ceases to control the entity, respectively.

The Group combines the Restated Consolidated Financial Information of the Parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Inter Company transactions, balances and unrealised gains on transactions between group companies are eliminated. Ind AS - 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Restated Consolidated Financial Information are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated Restated Consolidated Financial Information for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's Restated Consolidated Financial Information in preparing the consolidated Restated Consolidated Financial Information to ensure conformity with the Group's accounting policies. The Restated Consolidated Financial Information of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent.

**Joint Venture**

A joint venture is a joint arrangement whereby the parties, that have joint control of the arrangement, have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in the Restated Consolidated Financial Information using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in a joint venture is initially recognised in the consolidated Restated Consolidated Statement of Assets and Liabilities at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture, the Group discontinues recognising its share of further losses. Additional losses are recognized to the extent that the Group has incurred legal or constructive obligation or made payment on behalf of the joint venture.

**Note 54: Reporting of Audit Trail**

As per proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended) effective April 1 2023, which requires for books of account to have the feature of audit trail in the accounting software used by the Group and its Joint Venture to maintain edit log.

**Financial Year 2025-26**

The Group is using SAP S/4 HANA application (SAP) for books of accounts which has GRC access control module for the assignment and monitoring of the access.

Application-level logging has been enabled for financially relevant key tables with validation of tolerable level of impact on SAP performance. While there is no access available to any user at database level, the audit trail was also configured 27th May 2024 at entire data base level.

As an inherent limitation of the SAP, changes logged at database level only retains the new values. Further, the Group has implemented CyberArk make Privileged Access Management System (PAM) suite which provides access based on need and maintains video recording of activities carried out by privileged user.

**Financial Year 2024-25**

The Group and its Joint Venture are using SAP S/4 HANA application (SAP) for books of accounts.

The Group and its Joint Venture are using GRC application for assigning and monitoring privileged accesses since go-live of SAP system. Further, application layer logging is enabled for all changes except changes made using certain privileged access. SAP does not capture "old value" and "new value" of changes made. This is inherent to SAP functionality and the management is working towards addressing the same with the vendor.

For HANA database, after thorough testing and validation of tolerable impact on performance of SAP, the audit trail at Database level was configured on May 28, 2024 for users performing dialog login to the database. However, due to standard database functionality of HANA DB, while changes made are logged in the database, it does not capture "old value" and "new value" of changes made. Further, the group has implemented CyberArk make Privileged Access Management System (PAM) suite which provides access based on need and maintains video recording of all activities carried out by privileged user. The audit trail has been preserved by the Group as per the statutory requirements for record retention.

**Note 55: Middle East Conflict**

The ongoing conflict in the Middle East has resulted in the disruption of liquefied natural gas shipments through the Strait of Hormuz and suppliers have invoked force majeure clause which would entail diversion of natural gas to the priority sectors. The Ministry of Petroleum and Natural Gas ("MoPNG") issued the Natural Gas (Supply Regulation) Order, 2026 dated March 9, 2026 (the "Order"), for supply and allocation of Natural Gas for the end consumers.

The Group continues to monitor further developments, clarifications and implementation of the Order issued by the MoPNG and the Petroleum and Natural Gas Regulatory Board ("PNGRB") and will assess the consequential impact on its operations and financial results in future periods.

**Note 56: Proposed Dividend**

The Board of Directors at its meeting held on May 13, 2026 had recommended a final dividend of 8.50% (Rs. 0.85 per equity share of par value Rs. 10 each) for the financial year ended March 31, 2026 and the same was approved by the shareholders of the Company at the 8th Annual General Meeting on July 21, 2026.

**Note 57: Events occurring after reporting period**

The Group evaluated subsequent events and determined that there were no events subsequent to the period end requiring disclosure in the Restated Consolidated Financial Information.

**Note 58: Approval of Restated Consolidated Financial Information**

The Restated Consolidated Financial Information were approved for issue by the board of directors on August 04, 2026.

**Part B: Non adjusting items:**

a) Emphasis of Matter not requiring adjustments to Restated Consolidated Financial Information are reproduced below in respect to the Audited Special Purpose Interim Consolidated Financial Statements for the three months ended June 30, 2026 and June 30, 2025 and the Audited Consolidated Financial Statements for financial years ended March 31, 2026, March 31, 2025 and March 31, 2024:

**(i) Emphasis of Matter for the three months Period ended June 30, 2026**

We draw attention to Note 2A to the Special Purpose Interim Consolidated Financial Statements, which describes the Basis of Preparation. The Special Purpose Interim Consolidated Financial Statements dealt with by this report have been prepared in accordance with Ind AS 34 notified under Section 133 of the Act vide the Companies (Indian Accounting Standards) Rules, 2015 for the express purpose of preparation of restated consolidated financial information of the Company, which will be included in the Updated Draft Red Herring Prospectus – I ("UDRHP-I"), Red Herring Prospectus ("RHP") and the Prospectus ("Prospectus") (hereinafter collectively referred to as the "Offer Documents"), to be filed by the Company with the Securities and Exchange Board of India ("SEBI"), BSE Limited ("BSE"), National Stock Exchange of India Limited ("NSE") and the Registrar of Companies, Ahmedabad ("ROC"), as applicable in connection with the Proposed Initial Public Offering of the equity shares of the Company (the "Proposed IPO"). As a result, the Special Purpose Interim Consolidated Financial Statements may not be suitable for any other purpose.

The Special Purpose Interim Consolidated Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Act, as those are not considered relevant by the Management and the intended users of the Special Purpose Interim Consolidated Financial Statements for the purposes for which those have been prepared.

Our opinion is not modified in respect of this matter.

**(ii) Emphasis of Matter for the three months Period ended June 30, 2025**

We draw attention to Note 2A to the Special Purpose Interim Consolidated Financial Statements, which describes the Basis of Preparation. The Special Purpose Interim Consolidated Financial Statements dealt with by this report have been prepared in accordance with the Basis of Preparation specified in Note 2A to the Special Purpose Interim Consolidated Financial Statements for the express purpose of preparation of restated consolidated financial information of the Company, which will be included in the Updated Draft Red Herring Prospectus – I ("UDRHP-I"), Red Herring Prospectus ("RHP") and the Prospectus ("Prospectus") (hereinafter collectively referred to as the "Offer Documents"), to be filed by the Company with the Securities and Exchange Board of India ("SEBI"), BSE Limited ("BSE"), National Stock Exchange of India Limited ("NSE") and the Registrar of Companies, Ahmedabad ("ROC"), as applicable in connection with the Proposed Initial Public Offering of the equity shares of the Company (the "Proposed IPO"). As a result, the Special Purpose Interim Consolidated Financial Statements may not be suitable for any other purpose.

The Special Purpose Interim Consolidated Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Act, as those are not considered relevant by the Management and the intended users of the Special Purpose Interim Consolidated Financial Statements for the purposes for which those have been prepared.

Our opinion is not modified in respect of this matter.

b) Auditor's Comments in the Independent Auditor's Report not requiring adjustments to Restated Consolidated Financial Information are reproduced below in respect to the Audited Special Purpose Interim Consolidated Financial Statements for the three months ended June 30, 2026 and June 30, 2025 and the Audited Consolidated Financial Statements for financial years ended March 31, 2026, March 31, 2025 and March 31, 2024:

**1. Auditor's comments in the Independent Auditor's Report for the financial year ended March 31, 2026 (Consolidated auditor's report)**

Para 13(b): "In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended)."

Para 13(h)(vi): Based on our examination, which included test checks, the Group has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has been operating throughout the year for all relevant transactions recorded in the software, except that the audit trail at application level does not capture changes made to certain financially relevant tables by certain users with specific access and audit trail at database level does not contain the pre-modified values due to inherent limitation of database. During the course of performing our procedures, except for the aforesaid instances of audit trail not maintained where the question of our commenting does not arise, we did not notice any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior years, has been preserved by the Group as per the statutory requirements for record retention.

**2. Auditor's comments in the Independent Auditor's Report for the financial year ended March 31, 2025 (Consolidated auditor's report)**

Para 13(b): "In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended)."

Para 13(h)(vi): "Based on our examination, which included test checks, the Group and its joint venture have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has been operating throughout the year for all relevant transactions recorded in the software, except that the audit trail at application level does not capture changes made to certain financially relevant tables by certain users with specific access and audit trail at database level, enabled from May 27, 2024, does not contain the pre-modified values. Further, during the course of our audit except for the aforesaid instances, we did not notice any instance of audit trail feature being tampered with or not preserved as per the statutory requirements for record retention."

**3. Auditor's comments in the Independent Auditor's Report for the financial year ended March 31, 2024 (Consolidated auditor's report)**

Para 13(b): "In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended)."

Para 13(h)(vi): "Based on our examination, which included test checks, the Group and its joint venture have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and that has been operating throughout the year for all relevant transactions recorded in the software, except that the audit log does not capture changes, if any made using certain privileged access. Further, during the course of our audit except for the aforesaid instances, we did not notice any instance of audit trail feature being tampered with."
